## VETERINARY CARE

ACUPUNCTURE • HERBS • ADJUSTMENTS • PHYSICAL THERAPY • REHABILITATION SERVICES

Dear Appreciated Client(s),

Welcome to Harmony Holistic Veterinary Care. Our practice offers an integrative approach to veterinary medicine including acupuncture, gentle manipulations, and natural supplements in the care of your animal friend(s). It is our intention that our practice includes the following:

- Listening to and respecting your individual concerns and needs.
- Caring service toward enhancing your pet's well being.
- Awareness of, and service toward the interconnectedness we all share.
- Support for freedom from physical, emotional, and mental suffering, which to us includes compassionate support when dying.

Drawing on our extensive experience in both traditional and holistic veterinary medicine the doctors at Harmony Vet Care will make recommendations in conventional and complementary medicine where appropriate.

Finally, after discussing your animal's condition with us, should you choose to proceed with treatments, we thank you for entrusting a portion of your animal's care to us.

Respectfully,

Delia Macdonald, DVM  
Tammy Pauletto, DVM  
Roxanne Batt, DVM & Staff  
919 12<sup>th</sup> Place #6, Prescott, AZ 86305 (928) 445-7499

### **AUTHORIZATION FORM**

I authorize the doctors at Harmony Veterinary Care to perform veterinary acupuncture, and/or electrotherapy, and/or gentle manipulations, and/or to prescribe natural products (herbs and supplements) for my animal\_\_\_\_\_.

I realize that:

- As with all medical procedures there is no guarantee of cure.
- While there is mounting scientific evidence as to the effectiveness of the above treatments, much of the evidence is anecdotal (based on case-by-case reports). Some of the treatments have been used for centuries (even thousands of years) in China, while other treatments have been developed recently, and shared amongst highly reputable and degreed practitioners in the fields of veterinary medicine, botanical medicine (herbs), naturopathic medicine, osteopathy and physical therapy. While the treatments are to the best of our knowledge safe and frequently effective many do not have scientific studies done regarding their efficacy or long-term safety.
- As with all medical procedures a second professional opinion is always recommended.
